## Technology

### THE FASTEST INTERNET/BROADBAND SPEEDS IN THE NATION

SLTC connects directly to Lit San Leandro's fiber optic network, offering broadband connection speeds up to 10 Gbps.

### BUILT WITH VIEW DYNAMIC GLASS

SLTC provides a comfortable, customizable indoor climate for occupants while conserving energy and saving money.

### DESIGNED WITH NEOLITH FAÇADE

SLTC is built with an efficient ventilated façade designed to help naturally heat and cool the building—an advantage when it comes to reducing energy costs.

SLTC is an extremely rare and highly desirable workplace located in the center of the bay area, on BART in San Leandro.

## Transit

### PEOPLE USE PUBLIC TRANSIT WHEN JOBS ARE NEAR IT

A commitment to transit-oriented development gives San Leandro a growing competitive advantage as a hub for the lifestyle and job opportunities of tomorrow.

SLTC's working community gets door-to-door service from transit-served areas around the Bay Area. Just one exit away on Highway 880 from the Oakland Airport means that businesses at SLTC can connect with their national clients with ease.

With close proximity to the Port of Oakland, the third busiest port on the West Coast, businesses at SLTC can connect with materials from the rest of the world and bring their products to international markets.

# Transformation

San Leandro is in the midst of a transformation from a city with a celebrated manufacturing history to an innovation and technology-focused future. San Leandro is leading a resurgence in fabrication and innovation in the Bay Area, with a commitment to a 21st century ecosystem that promotes both “making” and “thinking” workplaces.

The city has become a vibrant hotbed for manufacturing and technology businesses and is home to a growing craft beer industry, with three market leaders Drake’s Brewing, 21st Amendment Brewery and Cleophus Quealy Beer Co. expanding their production facilities and opening tasting rooms and restaurants in the city.

“San Leandro’s downtown area is in full growth mode and booming with building projects, improved services and a long-term strategy.”
